About Company

Eulum Al-Rafidain is an general trading, Oil services, general services company in iraq - basra.

Our main activities includes, but not limited to, Trade , Supply Chin , oil services ,general contract integrated project management services.

Our primary market has been iraq but with plans to expand into overseas markets across MENA countries with substantial oil reserves.

With 100+ employees represnting over 10 nationalities, EAC is made up of extraordinarily skilled and talented individuals with international expertise who share a common purpose for always thriving to deliver beyond client expectations.

We embrace the most advanced technologies to stay ahead of industry peers and ensure exeptional customer service.

(EAC) is known in its commitment to ensure high quality, high value

service performance, and best efforts to provide the ultimate client experience

Our Vision

Our vision is to be a leading oil and general trading company recognized globally for excellence. We work hard to achieve this by creating a distinguished cadre to rise to the highest levels of success, progress and good reputation.

Our Mission

Our mission is to be the world's leading oilfield services, equipment and general trade company focused on all areas. We strive to achieve customer success by providing growth and enrichment opportunities for our employees, our business partners, and the communities in which we operate. In everything we do, we strive for honesty, fairness, and integrity.

CEO MESSAGE

- "It's important that we all take ownership of our goals and objectives. Let's strive toward success together!"
- "We're in the middle of an exciting time as our company grows. Let's use this as an opportunity to be proactive and work towards our long-term goals!"
- "Setting goals and objectives is essential for our success. Let's make sure that we remain focused on the bigger picture."

HOW WE WORK

QUALITY ASSURANCE & CONTROL: QA / QC

EAC QA/QC Plan covers all the quality management activities related to equipment, for the procedures, rental and service operations on the Project. It is intended to provide a guide to the structure of the Quality Management System (QMS) and procedures relevant to the activities to be adopted for BGD team. It is the intention that this will provide a common base from which to work, while providing a degree of assurance that QMS's are in place and in use throughout the planning and execution phases of the project.

QUALITY OBJECTIVE

Quality Objectives
Complete all projects within stipulated time and within budget limits. Execute all projects strictly in conformance with customer quality requirements. Minimize Non Conformance during all phases.

SUPERVISING

Commitment to Quality
The services our management provides are delivered in accordance with quality plans tailored to meet our client's specific requirements. In order to ensure compliance with our Quality Management System, regularly quality audits are carried out throughout the organization.
